Scott has tens of thousands of hours invested in his spiritual understandings and can confidently express solid concepts to your audience. Having authored the book *Bridging the Gap between the Christian and Metaphysical Worlds*, he can speak intelligently to your audience members who may be drawn toward Psychic Phenomenon yet grounded in a more traditional religion. Scott brings the best information the planet has to offer from the ancient mystery schools to today's cutting edge Quantum Physics, from established religions to the "New Age" movement. Besides being a very knowledgeable and personal guest for your show, Scott also does live Psychic Readings on the air! Whether your audience is in studio or half way around the globe, he can "Tune In" and get the answers that they need. Scott also connects the living to loved ones who have "Crossed Over". He can also see into the human physiology as a Medical Intuitive and then connect to the "Source Energy" and heal the energetic, emotional and psychical bodies of your audience members.
